Working in shifts

The company provides 24x7 support from its offshore delivery centre in India for certain on-site projects or clients. Accordingly, employees working and mapped to such projects will be required to work in shifts based on client requirement.

Weekdays, week offs and working hours will accordingly be synchronized with the global time-zones.

Since we strongly advocate women safety, we discourage our female colleagues to stay in office beyond 8:00 p.m. In the event of contingencies, which necessities a female employee to stay beyond 8:00 p.m. the respective reporting manager needs to intimate the Admin and HR team to ensure she reaches safely.
